

Steve Benjamin

Innovative Engineering Intern

+1-541-754-3010 Email linkedin.com New York, NY

SUMMARY

A highly motivated engineering student with a solid understanding of infrastructure design principles and scripting languages. Seeking an internship opportunity to leverage my technical skills and contribute to BlueVoyant's infrastructure engineering projects.

EXPERIENCE

Engineering Student

XYZ University

2021 - 2023 New York, NY

Worked on various engineering projects, honing my technical and problem-solving skills.

- Successfully completed a project on infrastructure design using AWS, Azure, and GCP, resulting in a 15% efficiency increase.
- Developed a Python-based automation tool that reduced manual tasks by 20%.
- Collaborated with a team of 5 students to design and implement a secure infrastructure model.

EDUCATION

Bachelor of Science in Engineering

XYZ University

2019 - 2023 New York, NY

LANGUAGES

English
Native

STRENGTHS

Problem Solving

Excellent at troubleshooting and remediation

Technical Proficiency

Proficient in Python, Bash, Ruby

Agile Development

Experience with Agile development process

SKILLS

Python

Bash

Ruby

Agile Development

Infrastructure Design

Cloud Computing

KEY ACHIEVEMENTS

Automation Project

Reduced manual tasks by 20%

Infrastructure Design Project

Increased efficiency by 15%
